### **5.3 WHOLE BEAN COFFEE**

- a. Whole bean coffee is the accumulation of roasted product of the seed of the fruit of a plant of the genus Coffea.
- b. Coffees may not have any additives, flavorings, colorings, perfumes, aromatic substances, liquids, powders, etc. of any kind added at any point between the time the coffee is picked (as cherry) to when it is extracted into beverage. Substances utilized during growing, cultivation, and primary processing of the green bean are permitted (water, yeast, coffee, coffee byproducts, fertilizers, etc.).
- c. Coffee ground before the competition time will be allowed. The same rules regarding additives apply.
- d. The Host provided Service coffee options will be medium to medium-light roasted specialty-grade coffees (Agtron 60 to 80 Ground on 'gourmet scale'), roasted without major roasting defects, such as baked or burnt, no more than 7 days prior to the competition. If more than 1 individual roast-batch of a coffee is provided, the batches will either be labeled uniquely, or batches will be completely blended.

### **5.4 THE BEVERAGE**

- a. The beverage must be an extraction from particles of whole bean coffee, using water as the solvent. No other additives of any kind will be allowed, aside from those contained within the relevant definitions of whole bean coffee, brew water, brewing devices, and service vessels. Additional water may be added ("bypass") to the beverage before serving to alter concentration.
- b. The beverage is suggested to have a total dissolved solids content of less than or equal to 2.00% or 20,000 ppm
- c. Competitors will prepare and serve 2 individual coffee beverages, 1 to each of the 2 Sensory Judges.
- d. Each of the 2 beverages should be between 120 and 375 mL. If a beverage served is found to be less than 120 mL or more than 375mL, that particular beverage (cup) will be disqualified and receive no score. Only the cup will be disqualified, Taste Description and Customer Service scores will still be counted. Judges will still evaluate the under or over-served cup for the competitor's reference.
- e. It is not necessary to serve the entire quantity of beverage produced during the coffee preparation. However, each sensory judge must be finally served at least 120 mL of the beverage to evaluate.

### **5.5 BREW WATER**

- a. Competitors must utilize the water provided by the competition for Service.
- b. Provided water will be calibrated to within the acceptable ranges according to section below.

- c. Provided water will be available both at room temperature and heated to between 96.0 and 98.5°C.

## 5.6 GRINDER

- a. A grinder is a device that grinds whole bean coffee into smaller physical particles without changing the chemistry of the coffee, aside from that directly related to the grinding of the coffee (friction, heat, etc.), and does not add any additives to the coffee.

## 5.7 BREWING DEVICE

- a. A brewing device is any item that a competitor uses during and is involved in the beverage extraction.
- b. Brewing devices must be “manual” in nature, and may not include or involve mechanical action powered by supplemental forces (i.e., electricity) other than those exceptions below:
  - i. Mechanical action powered by the competitor’s manual action (i.e. hand and/or arm action), by gravity, or created by the act of coffee brewing itself (i.e. pressure in vacuum brewers, movement in balance brewers) is permitted.
  - ii. Heat sources are allowed (electrical, magnetic, or liquid fuel), provided they are used to heat water or the coffee beverage and not to power to any additional mechanism.
  - iii. A machine or mechanism that supplies the competitor with brew water is allowed, though if it involves any automated and/or portioning mechanism (i.e., a machine programmed to dispense a specific quantity of water), it may not be used directly on the coffee. For example, an automatic water delivery machine could dispense into a pouring vessel, but not directly to the coffee.
- c. Competitors must utilize their own brewing devices. While sponsors may make certain brewing devices available for competitor use, competitors are ultimately responsible for supplying their own brewing devices (including filtration media if applicable). Competitors may therefore NOT serve more than 1 judge from any distinct and individual preparation (e.g., competitors may NOT prepare a single 1 litre French press and pour it into 2 cups for the judges. Acceptable service would involve the use of 2 individual French presses).
- c. The “extraction time” is defined as the duration of time that begins the moment the brew water and coffee grounds first come into contact and ends the moment the competitor stops brewing. Brewing stops when the extracted beverage has completely separated from the coffee bed (water retained within the coffee grounds is not considered part of the “extracted beverage”), or when the barista has cut the flow of extracted beverage into the service vessel, whichever comes first. Water due to prewetting of filters will not be considered as “brew water”.
- d. Beverages will be disqualified if the extraction time begins before the competition time begins.

- b. Each competitor will have 7 minutes to set up their station and prepare all relevant items for the Competition Time. Electrical equipment may be set up and plugged in prior to the start of Setup Time, but may not be energized (turned on) until Setup Time begins.
- c. When Setup Time elapses the competitor must cease all active preparation or manipulation of items that will be involved in the coffee service until the Competition Time begins. Competitors may not be holding in their hands anything involved in the coffee service after the Setup Time elapses, with the exception of a timer or personal drinking water.
- d. Competitors should account for the fact that the time between the end of Setup Time and beginning of Competition Time may and shall vary.

- e. Once the competitor has arrived at their assigned station, the official preparation timekeeper will ask the competitor if they are ready to begin. The competitor must raise their hand and say “time” to begin their 7 minutes of preparation time before touching anything at their station. The designated timekeeper will begin a stopwatch at that moment. If competitor’s preparation time is ready to begin and the competitor is not ready, their time may be started at the discretion of stage manager. Competitors are responsible for ensuring that they are ready prior to the start of their preparation time.

## 9.2 CART OR BUS TUBS

- a. Competitors are responsible for the loading and unloading of supplies on the provided waiter’s cart or bus tubs. The preparation timer will remove the cart from the stage at the end of the competitor’s preparation time. The waiter’s cart is not allowed on stage during the performance. Please note that if items are left on the cart after the competitor’s preparation time has concluded, the competitor may not retrieve those items until their performance is underway. (See “Forgotten Accessories”)

## 9.6 END OF PREPARATION TIME

- a. Competitors may not exceed their allotted 7 minutes of preparation time. The timekeeper will give the competitor 3 minute, 1 minute, and 30 second warning during their 7 minutes of preparation time. At 7 minutes, the official preparation timekeeper will indicate that time has expired and ask the competitor to step away from the station. Any competitor who fails to cease preparation within 5 minutes will be subject to penalties as shown in the “time penalties” section.

## 10.0 COMPETITION TIME

### 10.1 INTRODUCTION BY THE MASTER OF CEREMONIES

- a. Immediately prior to beginning their presentation, the Master of Ceremonies (emcee) may introduce the competitor to the audience.

### 10.2 BEGIN COMPETITION TIME

- a. Before introducing themselves to the judges, the competitor must start their official time by raising their hand and saying “time”. The designated timekeeper will begin a stopwatch at that moment to begin their 8 minutes of competition/performance time.
- b. Tracking time elapsed during the 8 minute competition/performance time is the responsibility of the competitor, though they may ask for a time check at any point. The competition timekeeper will give the competitor a 5 minute, 3 minute, 1 minute, and 30 second warning during their 8 minutes of competition time. The timekeeper is required to vocalize these warnings in real-time and may interrupt a competitor while they are speaking.
- c. The official time will be read from the timekeeper’s watch.

### 10.3 COMPETITOR INTRODUCTION

- a. At the start of the competitor’s performance, they may introduce themselves to the taste judges and the head judge. The sensory judges and head judge will be behind the judges’ presentation table.

### 10.4 STATION PERIMETERS

- a. Competitors may only utilize the work area provided: the machine table and judges/presentation table. The introduction of any other furniture and/or equipment that is placed directly on or over the competition area floor (e.g., a stand, table, dumbwaiter, bench, etc.) will result in automatic disqualification.

### 10.5 END COMPETITION TIME

- a. Competition time will be stopped when the competitor raises their hand and says “time”. The competitor is responsible to make their signal loud and clear to the official timekeeper and head judge.
- b. The competitor may choose to end their performance at any time. For example, competitors can stop their time once their final

drink is served to the judges on the presentation table or may choose to go back to their station to clean before stopping. Only the time recorded by the competition scorekeeper or head judge will be used for scoring purposes.

- c. Competitors are allowed up to 8 minutes for completion of their performance without penalty. There is no penalty or additional incentive to complete a performance in less than 8 minutes.

## 10.6 COMMUNICATION AFTER THE COMPETITION TIME

- a. Competitors may not talk to the judges once their performance has ended. Any communication provided to judges after the completion of a presentation will not be considered for scoring evaluation. Competitors may continue to talk to the Master of Ceremonies after the competition time has ended; however, the judges will not be impacted by the conversation or information given after the competition time has ended.

## 10.7 OVERTIME PENALTIES

- a. If the Competitor has not finished their presentation during the allotted 8 minute period, they are allowed to proceed until the preparation or presentation is completed.
- b. After the 8 minutes have lapsed, 0.5 point shall be deducted for every 1 second over 8 minutes from the competitor's total score up to a maximum penalty of 30 points (1 minute).
- c. Any competitor whose preparation or performance period exceeds 9 minutes will be disqualified.

## 10.8 COACHING

- a. Instructions or 'coaching' may not be provided to a competitor during the time of their competition under penalty of disqualification. Audience participation and enthusiastic fan support is encouraged so long as it does not interfere with competition. (Please note: coaches, supporters, friends, or family members are not allowed on stage while the competition is in progress, otherwise the competitor is subject to disqualification by the presiding head judge.)

## 10.8 ADDITIONAL SERVICE INFORMATION

- a. Competitors should present their coffees with an accompanying presentation that enhances the taste experience of the coffee and relates to exemplary service in a real world specialty coffee experience.
- b. The presentation will be evaluated based on how well the taste experience matches the competitor's description. The competitor's explanation of brew method/technique will also be evaluated.
- c. Presentations may be creative, informative, and entertaining, but should always be focused on enhancing the judges' coffee experience.
- d. Competitors may **not** serve or present any food, drink, or aromatic experience for the judges to consume, imbibe, taste, or smell, other than the coffees served. Any such service will not be evaluated by the judges and 0 score will be given in Customer Service category of the scoresheet.
- e. Competitors may not ask the judges to physically move from their judging positions.
- f. Judges will only evaluate beverages that are served to them in the final cup.

## 10.9 CLEAN-UP TIME

- a. Once a competitor has completed their performance, they should begin cleaning up the station. A station runner will bring the waiters cart back or bus tubs on stage for the competitor to load their supplies on. If a competitor brought their own electrical equipment, the station runner can help the competitor remove these items from the station. Competitors are expected to remove all their personal equipment and supplies and thoroughly wipe down their station. The judges do not evaluate the clean-up time.

## 11.0 TECHNICAL ISSUES

- a. During the preparation and/or competition time, if a competitor feels there is a technical problem the competitor should raise their hand, call "technical" and ask for the Host or Stage Manager (during preparation time) or for the Head Judge (during competition time). The time will be stopped. Competitors may call for a technical timeout for the following reasons only:
  - i. The electrical power supply to the provided grinder or brew water machine
  - ii. The provided grinder or brew water machine
  - iii. If provided: The audio visual equipment (i.e. the competitor's microphone)

- b. If the Host/Stage Manager/Head Judge agrees there is a technical problem that can be easily resolved they will decide the appropriate amount of time for the competitor to be credited, if appropriate. Once the technician has fixed the problem the competitor's time will resume.
- c. If the technical problem cannot be solved in a timely manner the Host/Stage Manager/Head Judge will make the decision whether or not the competitor should wait to continue their performance or stop the performance and start again at a rescheduled time.
- d. If a competitor must stop their competition time the Host will reschedule the competitor to compete in full again at a later time.
- e. If it is determined that the technical issue is due to competitor error or the competitor's personal equipment the Host or Stage Manager may determine that no additional time will be given to the competitor and the preparation or competition time will resume without time being credited.
- f. Unfamiliarity with equipment is not grounds for a technical timeout.

### 11.1 OBSTRUCTIONS

- a. If any individual, such as volunteers, judges, audience members, or photographers are of an obvious hindrance to a competitor, then the competitor will be given additional time at the discretion of the head judge.

### 11.2 FORGOTTEN ACCESSORIES

- a. If a competitor has forgotten any of their equipment and/or accessories during their preparation time, the competitor may exit the stage to retrieve the missing items; however, their preparation time will not be paused.
- b. If a competitor has forgotten any of their equipment and/or accessories during their competition time, they must inform the head judge that they have forgotten an item(s) offstage and then retrieve the missing item(s) themselves. The competition time will not be paused.
- c. Nothing may be delivered by the runners, supporters, team members, or the audience, otherwise the competitor is subject to disqualification by the presiding head judge.

## 12.0 POST-COMPETITION

### 12.1 SCOREKEEPING

- a. The Host's scorekeepers are responsible for adding all scores and for keeping all scores confidential.

### 12.2 SCORING

- a. In order to calculate the Total Cup Score the scores for each of the 7 Cup Score components are to be summed (with the scores for Acidity, Body, and Balance being doubled).
- b. To calculate the Presentation Score, the 2 relevant scoring components will be added together, with the score for Taste Description and Customer Service being doubled.
- c. To calculate the Service Score for each scoresheet, the Total Cup Score shall be added to the Total Score of Presentation, and that sum shall be divided by 1.40.
- d. To calculate the competitor's average Total Open Service Score, the 2 sensory judges' Service Scores (1 from each scoresheet) will be added together and the total divided by 2.
- e. The maximum possible Total Open Service score is 100.

#### 12.2.1 Tie Breaking

- a. If there is a tie between 2 or more competitors the procedure to determine placement will be the following:
  - i. The competitor(s) with higher sum of Cup Scores (without the Presentation Scores) will be ranked higher.
  - ii. If there is still a tie the competitor with the higher sum of "Customer Service" points will be ranked higher.
  - iii. If there is still a tie the competitor with the higher sum of "Taste Description" scores will be ranked higher.
  - iv. If the scores are still tied the U.S. CoffeeChamps Qualifying Competition give reserved spots to however many competitors qualify with the Top 4 scores.

#### 12.2.2 Rounding

- a. Scores shall be rounded to the nearest hundredths-place (i.e., a total score of 88.583333 will be rounded to 88.58)

### 12.3 DEBRIEFING

- a. Following the awards ceremony, competitors will have an opportunity to review their scoresheets with the judges on-site in accordance to the announced schedule. Competitors are allowed to keep their original scoresheets only if the Scorekeeper and Host have scanned the scoresheets.
- b. Digital copies are available to competitors upon request starting 30 days after the conclusion of the Preliminary Competition by emailing the National Competitions Manager [competitions@sca.coffee](mailto:competitions@sca.coffee). Only competitors may request digital copies and only of their own scoresheets.
- c. If a competitor objects to their scores given by one or more judges, the competitor can meet with the Presiding Head Judge during the competitor debriefing to explain their protest. The Presiding Head Judge will discuss the competitor's protest on-site with the judges who judged the competitor. They will make a decision on-site and the Presiding Head Judge will inform the competitor of the decision.

#### 13.9 JUDGES' MORNING CALIBRATION

- a. Each competition day, before the competition, the judges pool should engage in coffee calibration.
- b. Judges shall acquire three different brewed coffee beverages of at least 150 mL each.
  - i. The beverages should be prepared from the provided Service coffees, but with varied brew characteristics.
- c. Each beverage should be divided into three portions, one for each judge, and labeled properly.
- d. Judges will taste each beverage a minimum of three times:
  - i. When the coffee beverage is served and has cooled to approximately 70°C ("hot").
  - ii. When the coffee beverage has cooled to approximately 40°C ("warm")
  - iii. When the coffee beverage has cooled to between room temperature and approximately 25°C ("cold").
- e. Judges will evaluate the beverages and record scores on a calibration scoresheet.
- f. The calibration exercise is for "priming the palate" and practicing using the scoresheets. Judges may confer during this period and ask questions at this time.

  - Extraordinary : 9 – 10

- b. Judges should consider the numerical score to be a code that corresponds with each descriptive word.
- c. Intermediary scores may be utilized in 0.25 point increments, and judges may not use scoring increments smaller than 0.25 points.
- d. A score of Unacceptable (0) is reserved for situations of clear and egregious violations of the Rules, common sense, or minimum standards of professionalism or service.

## 15.0 SERVICE EVALUATION AND PROCEDURE

### 15.1 JUDGING PREPARATION AND PROTOCOL

#### 15.1.1 Judges Table Supply List

- Pencils
- Clipboard (one per judge)
- Cupping spoons
- Spittoons/cups (optional)

#### 15.1.2 Cupping Spoons and Spittoons

- a. Judges have the option to use cupping spoons to slurp or sip the coffee from, or to slurp or sip directly from the cup the beverage is finally served in.
- b. Similarly, judges have the option to spit the coffees from their mouths, or to consume them.
- c. It is recommended (but not required) that judges try to be consistent with their spoon, slurping, sipping, spitting, or swallowing through the entire competition unless competitors give specific instructions on how to drink.
- d. Competitors may override the evaluation protocol by giving the judges specific alternative instructions on how they want the beverage to be consumed. As long as the instructions are reasonable and given before the beverage is served, the judges should follow the instructions. Once the judges start to evaluate the beverage from the cup which the beverage is finally served in, competitors may not override the evaluation protocol. Judges will not follow any instruction to evaluate the beverage at any other temperature than the three temperatures stated in the protocol.

### 15.2 CUP SCORE EVALUATION SCALE

- a. Cup scores are limited to the following range:

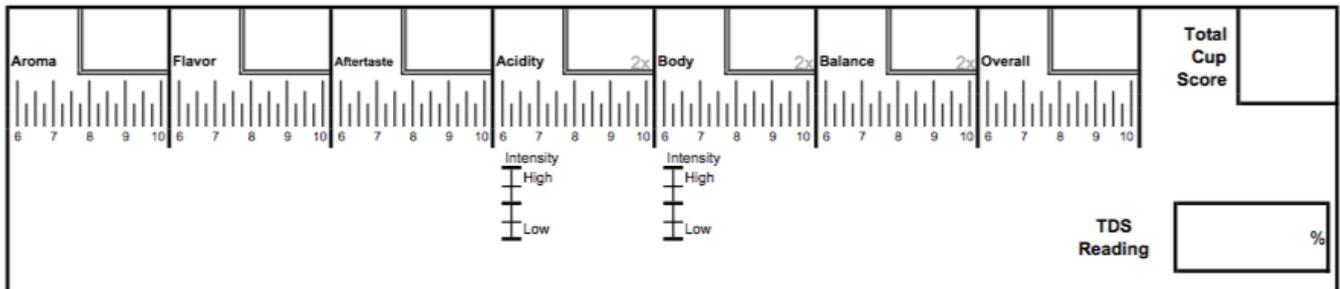

6.00 Good	7.00 Very Good	8.00 Excellent	9.00 Extraordinary
6.25	7.25	8.25	9.25
6.50	7.50	8.50	9.50
6.75	7.75	8.75	9.75 – 10.00

- b. Judges should use the Evaluation Scale of: Good, Very Good, Excellent, and Extraordinary.
- c. Judges may not use scores lower than 6.00. Evaluations below the description of “Good” should be given a score of 6.00.

### 15.3 SCORESHEETS

- a. Each evaluation component is marked with a horizontal (left to right) scale, which is used to rate the judge’s perception of relative quality of the particular component based upon their perception of the sample and experiential understanding of quality.
- b. Some components are marked with vertical scales. The vertical (up and down) scales are used to rank the intensity of the sensory component and are marked for reference and notation, and are not included in the score.
- c. After evaluation, the numeric score should be notated in each box marked Total. Scorekeepers will calculate the sum of the component scores to determine the Total Score.

### 15.4 CUP SCORE COMPONENTS

#### 15.4.1 Aroma

- Generally speaking, the range of the coffee's aromatic character corresponds to the origin of coffee. In contrast, the intensity of aromatic character generally relates to the freshness of a coffee, as measured by the length of time between roasting and brewing and depending on the type of packaging used to provide moisture and oxygen protection for the beans.

#### 15.4.2 Flavor

- Flavor represents the coffee's principal character, the "midrange" notes, in between the first impressions given by the coffee's first aroma and acidity to its final aftertaste. It is a combined impression of all the gustatory (taste bud) sensations and retro-nasal aromas that go from the mouth to nose. The score given for Flavor should account for the intensity, quality and complexity of its combined taste and aroma, experienced when the coffee is slurped into the mouth vigorously so as to involve the entire palate in the evaluation.

#### 15.4.3 Aftertaste

- Aftertaste is defined as the length of positive flavor (taste and aroma) qualities emanating from the back of the palate and remaining after the coffee is expectorated or swallowed. If the Aftertaste detracts from the experience of the cup (i.e. astringency or bitterness), lower marks should be given; whereas if the aftertaste contributes positively to the experience of the cup, higher marks should be given.

#### 15.4.4 Acidity

- Acidity is often described as "brightness" when favorable or "sour" when unfavorable. At its best, acidity contributes to a coffee's liveliness, sweetness, and fresh fruit character and is almost immediately experienced and evaluated when the coffee is first slurped into the mouth. Acidity that is overly intense or dominating may be unpleasant, however, and excessive acidity may not be appropriate to the flavor profile of the sample.
- The final score marked on the horizontal tick-mark scale should reflect the judge's perceived quality for the Acidity, relative to the expected flavour profile, based on origin characteristics and/or other factors (degree of roast, intended use, etc.). Judges are encouraged to link the origin, variety, or processing information of the coffee given by competitor to what has been delivered in the cup. Low or High intensities of Acidity can score well if the quality of acidity is high, and works well with the overall experience of the cup.

#### 15.4.5 Body

- The quality of body is based upon the tactile feeling of the liquid in the mouth, especially as perceived between the tongue and roof of the mouth. Samples with light or heavy body may receive high scores relative to the quality of the tactile feeling in the mouth. Some samples with lighter Body may also have a pleasant feeling in the mouth. However, coffees expected to be high in body can receive equally high preference scores although their intensity rankings will be quite different. Judges are encouraged to link the origin, variety, or processing information of the coffee given by competitor to what has been delivered in the cup.

#### 15.4.6 Balance

- How all the various aspects of Flavor, Aftertaste, Acidity and Body of the sample work together and complement or contrast to each other is Balance. If the sample is lacking in certain aroma or taste attributes or if some attributes are overpowering, the Balance score would be reduced.

#### 15.4.7 Overall

- a. The “overall” scoring aspect is meant to reflect the holistically integrated rating of the sample as perceived by the individual judge. A sample with many highly pleasant aspects, but not quite “measuring up” would receive a lower rating. A coffee that met expectations as to its character and reflected particular origin flavor qualities would receive a high score. An exemplary example of preferred characteristics not fully reflected in the individual score of the individual attributes might receive an even higher score. This is the step where the judges make their personal appraisal.

### 16.0 CUP EVALUATION PROTOCOL

- a. As soon as the coffee beverage is finally served, the judge should evaluate the Aroma component. It is important to evaluate this as quickly as possible, because the intensity of aroma will decline as the beverage temperature declines.
- b. The coffee beverage may, at this time, be decanted into the Service vessel.
- c. When the sample has cooled to 70°C, evaluation of the liquor should begin. The liquor is aspirated into the mouth, either with a spoon or directly sipping from the service vessel, in such a way as to cover as much area as possible, especially the tongue and upper palate. Because the retro nasal vapors are at their maximum intensity at these elevated temperatures, Flavor and Aftertaste are rated at this point.
- d. As the coffee continues to cool, the liquor is sipped from the service vessel or using a spoon to evaluate the Acidity, Body and Balance. Balance is the cupper’s assessment of how well the Flavor, Aftertaste, Acidity, and Body fit together in a synergistic combination.
- e. The judge’s assessment for the different components is evaluated at three different temperatures as the sample cools:
  - i. “Hot” which is defined as approximately 70°C
  - ii. “Warm” which is defined as approximately 40°C
  - iii. “Cold” which is defined as between 25 and 30°C
- f. Judges should clearly indicate a refine point on the tick-mark cupping form for 3 of the samplings; “Hot”, “Warm”, and “Cold”. This may be done by using the letters H, W, C or by placing a tick or circle on the scale and using arrows to communicate how the cup changed over time.
- g. Evaluation of the liquor should cease when the sample reaches approximately 30°C and the Overall score is determined by the cupper and given to the sample as “Cupper’s Points” based on ALL of the combined attributes.
- h. Judges will record details on their sensory evaluation in the notes area provided. This is for reference and for the competitor’s benefit. Judges should limit their notes and comments to those from a customer or sensory evaluation perspective, and avoid commentary on the brew method, technique, or device. (i.e., “Sharply acidic” or “baggy” is a valid note. “Brew time too long” or “underextracted” is NOT a valid note)

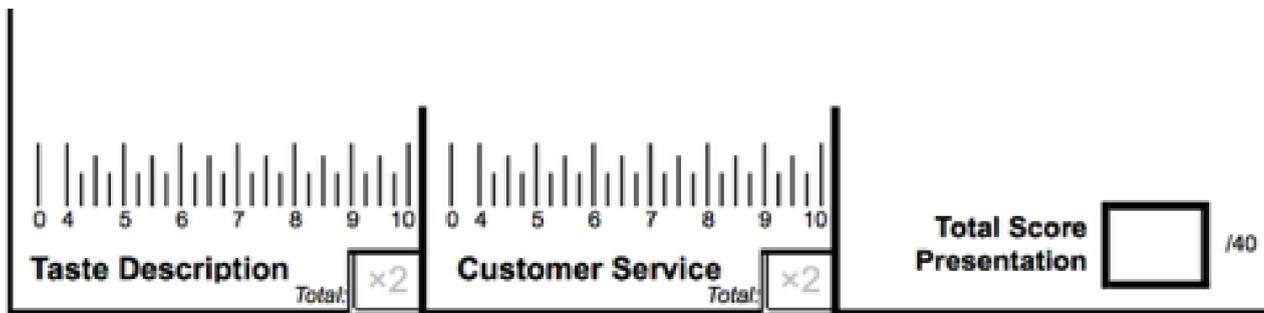

#### 16.1 PRESENTATION EVALUATION SCALE

- a. Presentation scores will use the full range of the Evaluation Scale.

#### 16.2 PRESENTATION SCORESHEET SECTION

- a. Presentation Scores range from “Acceptable” (4) to “Extraordinary” (10), with “Unacceptable” (0) reserved for situations of clear and conclusive violations of the Rules, common sense, or minimum standards of professionalism or service.
- b. Judges will use the note area and horizontal evaluation scale “tick marks” for reference, and mark the score in the box marked Total after the presentation is over and the sensory evaluation is concluded.

#### 16.3 PRESENTATION SCORESHEET COMPONENTS

### 16.3.1 Taste Description

- a. Competitors will be describing details regarding the sensory experience of their coffee beverages. Judges should take detailed notes, particularly those regarding specific taste or otherwise sensory descriptions. Higher marks will be given when the competitor's description of taste aspect that becomes apparent during tasting is both accurate and detailed. However, this is an evaluation of the quality, accuracy, and relevance of their descriptions, not the quantity.

### 16.3.2 Customer Service

- a. Competitors should be engaging, professional, and provide an exemplary coffee service experience. Competitors will not be expected to craft complex or fine-dining type experiences, and the presentation should relate to a real-world coffee service experience. Service that positively and creatively enhances the coffee experience beyond the cups of coffee beverage will score highly.
- b. Proper hygiene during the service and service vessel cleanliness will be taken into account.
- c. Information on why the coffee was chosen and how/why it was brewed the way it was is encouraged.

## 17.0 COMPETITOR PROTEST AND APPEALS

### 17.1 PROTEST

- a. If a competitor wishes to appeal a scoring decision or protest any other matter that arises during the competition which affects such competitor, the competitor shall address it to the Presiding Head Judge. The Presiding Head Judge will then determine whether the issue can be resolved onsite at the competition, or whether the issue will require a written appeal following the competition.
- b. If the Presiding Head Judge decides that the issue can be resolved onsite at the competition, the Presiding Head Judge will discuss it with applicable judges or any other parties involved to enable a fair presentation of the issue. A decision will be made onsite by the Presiding Head Judge who shall inform the competitor of the decision at that time.
- c. Possible resolutions to a competitor protest or appeal may include (but are not limited to):

- d. The Presiding Head Judge and the National Competitions Manager shall operate under the purview of the Specialty Coffee Association management and Advisory Board.

### 17.2 APPEAL LETTER

- a. If any protest described above cannot be resolved onsite or the competitor wishes to appeal a decision made by the Presiding Head Judge onsite, the Presiding Head Judge will ask the competitor to submit their appeal in writing (which may be by email or hard copy) to the National Competitions Manager.
- b. The appeal letter must include the following:
  - i. competitor name
  - ii. date
  - iii. a clear and concise statement of the complaint
  - iv. date and time references (if applicable)
  - v. competitor's comments and requested resolution
  - vi. party/parties involved
  - vii. competitor's contact information

- c. Any written appeals, which do not include this information, will not be considered. Competitors must submit their written appeal to the National Competition Manager within 24 hours after the subject incident.

### 17.3 APPEAL DECISION

- a. The National Competitions Manager will review written appeals within 30 days of receipt and contact the competitor in writing via email with the final decision.
  - i. Disqualification of another competitor
  - ii. An opportunity for 1 or more competitors to perform the relevant competition service to supersede the prior scores,
  - iii. Another solution, as determined by the National Competitions Manager
- b. The National Competitions Manager shall operate under the purview of the Specialty Coffee Association management and Advisory Board.
